

Christopher Lowe

Christopher Lowe is the acting Associate CIO for USDA's Agriculture Security Operations Center (ASOC) program. He holds current professional credentials in both information security (Certified Information System Security Professional (CISSP)) and as a Project Management Professional (PMP). Prior to March of this year, he was the Senior Agency Information Security Officer and the Associate CIO for Infrastructure and Operations at USDA's Food Safety and Inspection Service (FSIS). He joined FSIS in 2005, before which he spent eighteen years in federal IT consulting, most recently as a security engineer with Booz Allen Hamilton.
