

Jerry Chenault

Jerry has been at USDA since January 2002 where he was assigned to the Property Strike Team at Forest Service to achieve a clean opinion from the results of the audit. He later was assigned to the ACFO-FS in headquarters where he was instrumental in bringing the corporate property system to the department. His assignment shifted to the implementation of the eTravel System Solution as co-program manager and other assignments including A-123 for ACFO-FSPM, NIST 800-53 and Certification and Accreditation of the enterprise systems operated by ACFO-FSPM.

Prior to coming to USDA, Jerry worked in the private sector in information technology for computer companies and consulting firms as a management executive serving state and local governments and private companies.
